

# Falcon Drone Services

A DIVISION OF THE FALCON GROUP

Taking Our Clients to New Heights

An aerial photograph of a residential neighborhood. The image shows several houses with grey roofs, green lawns, and bare trees. A road with visible cracks runs through the scene. A dark brown semi-transparent box is overlaid in the center, containing white text.

## How Can Drones Help You?

Aerial photo / videography and imaging services will elevate your projects to new heights and your inspections and analyses will happen faster. Our industrial-grade drones deliver the newest, most innovative aerial solutions. Safer, faster and more cost-effective.

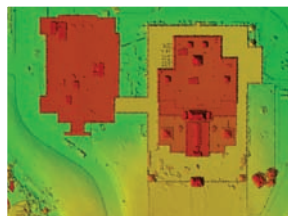

## A Bird's Eye View

Our team of professional engineers, architects, special inspectors and FAA certified drone operators combine their expertise to provide aerial photography, videography, 3D & thermal imaging that reduces costs and delivers superior results.
